To Hiring Manager

I was excited to see your opening for a software developer, and I hope to be invited for an interview. I believe I possess the necessary skills and experience you are seeking and would make a valuable addition to your company.

As my resume indicates, I possess more than two years of progressive experience as a software developer. My background at Sony Corporation includes the development of web application for the analysis of data from services/applications using such as Python and Scala on AWS and the analysis of user's activities for the targeted advertisement through cleansing data, managing data with hive, building and implementing statistical models. I currently serve as a volunteer software developer for new web-based system on seed stage project, where I have designed and implemented prototype of the whole system.

Hence, I hope to be granted an interview with you to discuss this further. Do not hesitate to contact me if you need more information.

Thank you for your consideration and I look forward to hearing from you.

Emi Ayada

Software developer
